

Medicaid Patients: Effective Oct 1st, 2011

Medicaid will not pay for more than 20 visits in a 12 month period (April-March). If more than 20 visits in this 12 month period are required, it will need to be paid privately by the patient/ responsible party. The office has a copy of the full policy. If you would like a copy, one will be provided.

I understand this Medicaid policy and agree to be responsible for any visits over the 20 visit limit with Step- By- Step Physical Therapy.
